### **Jewels Academy receives grant from Variety - the Children's Charity**

Des Moines, Iowa – Jewels Academy is excited to announce it has received a \$7,000 grant from Variety – the Children's Charity. These funds increased the outreach of programming for young women interested in learning more about STEM enrichment programs held by Jewels Academy.

Jewels Academy is a nonprofit organization that provides STEM enrichment programming through hands-on-learning from STEM professionals for young women giving them a competitive edge needed to succeed academically. Jewels Academy works with underrepresented young women, from elementary to high school ages.

The Variety grant funds supported our Young Emerging Scientists programming for 4<sup>th</sup> through 9<sup>th</sup> grades this past fall where students were able to learn about bioplastics, create mini robots and learn about mechanical, electrical and industrial engineering through a manufactured simulation. This grant also will support early 2024 STEM programming such as python coding and various physical science workshops.

"The Support from Variety – the Children's Charity brought programming to some of the most vulnerable communities. The exposure to STEM enrichment programming early expands students future career outlook and can remove barriers. This grant creates opportunities to open doors for some of our most vulnerable populations." said Dr. Kimberly S. Wayne, founder, and chair of Jewels Academy. "Variety opened the door to enable students to attend at no cost. Thank you, Variety!"

#### **About Variety – the Children's Charity of Iowa**

Variety - the Children's Charity is dedicated to improving the lives of children who are underprivileged, at-risk, critically ill, or living with special needs. Grant funding is provided to programs and initiatives that directly impact the well-being of children.
